Made available by:

CEMWOOD – The warmth of wood combined with the durability of cement

Rich, Bold & Beautiful – These are the comments our finishes have been receiving from construction professionals across North America where our market study was performed. Our high definition, laser-applied technology allows for a rich woodgrain essence directly applied on our fiber cement products. This technology, exclusive to Cemfort Siding Solutions, is then permanently protected by a UV resistant sealant, guaranteeing a durable finish for at least 20 years, one of the best warranties in the business.

ADVANTAGES

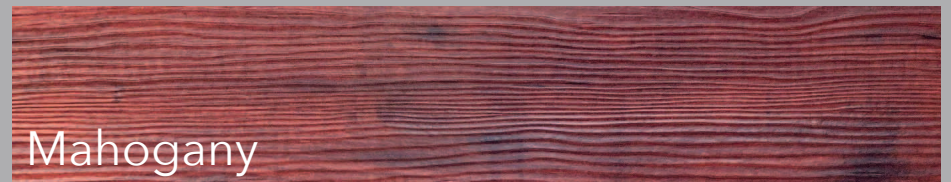

- ✓ High-end finish with unmatched longevity: **20 years**
- ✓ Incombustible, low maintenance & durable
- ✓ H.D laser applied print; Woodgrain visible from afar
- ✓ Cost-effective solution for woodgrain alternatives
- ✓ Simple installation with color match accessories in option
- ✓ Complete product lineup: Planks, Panels, Soffits and Trims that can be incorporated in any project, from residential to commercial.
- ✓ Excellent solution for remodeling as an accent feature of the main siding!

Looks like the real "McCoy", but incombustible and low maintenance!

Wood Essences

Choose the right woodgrain for your project based on our unique & extensive collection of wood essences. Rest assured that all of the below are supported by the best warranty in the business, for a distinctive and timeless project.

Custom wood essence available upon request.
